(54) SERVICE PROVIDING SYSTEM, MANAGEMENT SERVER, SERVICE PROVIDER, TERMINAL DEVICE, STORAGE MEDIUM ISSUING DEVICE, SERVICE PROVIDING METHOD, AND STORAGE MEDIUM

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a service providing system suitable for providing various services for the media from a service provider.

SOLUTION: Different identifiers are stored for each package media 51 to be issued, and a media ID stored in the package media 51 is registered with a media ID management server 505 in a database form. In providing services for each package media 51, the media ID stored in the package media 51 are compared with the media ID registered in the media ID management server 505, and the various services are provided for the package media 51 according to the comparative results. The service received by the package media 51 is stored (registered) in the package media 51 or the media ID management server 505 as access right information.
